Great Lakes Marina was designed and built by Great Lakes Dock & Materials. The marina opened in 1990 and has expand over the years to a 274 slip full service marina complete with Boat Sales, Service Department, Gas Dock, Boat Storage, Clubhouse, and Swimming Pool. The marina consists of 2,579 lin.ft. of 8' wide floating main piers, 3,920 lin.ft. of 4' wide floating finger piers, 970 lin.ft. of 4' wide fixed piers, and (8) boat hoists. The marina basin is protected from wave action by a 570 lin. ft. 12' wide breakwater utilizing suspended concrete panels. The shoreline is stabilized using riprap with a elevated wooden boardwalk on the south shoreline and steel sheet piling with concrete sidewalk on the east shoreline.
